- Airspace Situational Awareness Display
- Airspace Management (Constraint Issuance)
- Airspace Alerting (DAA, Non-Conformance, etc.)
- Service Monitoring / Operational Impact Assessments
- Health & Integrity Monitoring
- Weather Data, Forecasting, Weather Alerting
- Cybersecurity Monitoring, Cyber Threat Mitigation
- Flexible 3rd Party Application Integration

- The CMP is an integrated platform for supervising UTM/AAM airspace and managing emergent contingencies
- Sponsored development by the FAA and OFRN
- Looking for partners and/or sites to deploy the system (Cost Share Available)
- The CMP brings the safety and oversight for UAS integration and UTM operationalization
